Dear Employee,

We are happy to announce that our minimum wage has been raised to \$13 an hour from May 1st of 2020. All caregivers who continue to work during this pandemic will have their work recognized. We are grateful for those who remain and we will continue to reward your work. Our referral program is continuing to work as before. We have immediate job openings. Please remember to bring in anyone in need of extra income or clients that need extra help.
